Minutes of WRPS Committee Meeting Jan 8th 2026 held at The Windmill Little Wilbraham.

1. Apologies

2. Attendance

Richard Townley (RT) Chair, David Lomas (DL), Rebecca Lomas(RL) Sec, Steven Cory (SC), Richard Lane (RL), Sharon Mulley(SM)Treas.

3. Minutes of Previous Meeting

The minutes of the October meeting were approved and accepted.

4. Matters Arising

- Draft minutes of the AGM to be added to the website.

5. Treasurer's Report

- Donations from the AGM: **£82.92**
  Donations from Fulbourn: **£30.00**
  Balance of account at **6 January 2026**: **£894.00**

Expenditure:
- Bank charges: £5 per month (£60 per year – lowest available charge).

Anticipated Costs:
- Bank charges
- Equipment for monitoring
- Website fees: currently £9 per month; will increase to £16 per month if the donations page is activated.

-Public Liability Insurance £280

6. Secretary's Report

- Current membership: **147**.
  Member contact working well via email.
  Three new members recently joined via the website.

7. State of the River Updates

- DL and David Cottee continue to report to the EA on the state of the river.RL reports 3 monthly .
- Annual rainfall figures discussed:
  - 2026 to date: **4 mm**
  - 2025 local total: approximately **489 mm**
    Normal annual local rainfall: approximately **750 mm**

- Augmentation has continued fully, though the split between Fulbourn and Temple Springs remains unknown.
- Current river flow present to the junction of the Wilbraham River and the North end of the triangle where Teversham footpath joins the Wilbraham footpath.

- River bed remains dry up to the A1303 bridge.

8. DFASS Update

- No further update received.
  DJL has requested information from Sam Phillips regardingWED classifications.

9. River Quality Monitoring

- A solar panel was stolen from the Fulbourn monitoring station. As a result, all monitoring equipment was removed.
- Equipment has since been updated; new panels purchased and will be reinstalled initially at Fulbourn, followed by The Lanes and the A1303.
- Proposed monitoring additions:
  - Electrical Conductivity (EC)
    Total Dissolved Solids (TDS)
    Turbidity
    Possible pH monitoring (noted as potentially unnecessary due to chalk geology).
- Ultrasonic depth monitoring to continue.
- Phosphate and nitrate monitoring to continue; DJL awaiting nationwide monitoring results from CastCo.
- SC and DJL to draw up a list of equipment requirements.
- SC has applied to attend a ”Flood and Drought Research Initiative” workshop in February on monitoring equipment.
- SC to prepare a proposal for funding of monitoring equipment for the Clock Fund .

Funding Opportunities Discussed: - Local interest in funding via *From the Ground Up (FTGU)* application to Water Resources East (WRE) – Thriving Communities Fund and AWINP. - RT suggested the Fulbourn Clock Fund as a possible funding source (SC). - Wadlow Wind Farm noted as a potential source for community benefit equipment; RL to discuss with DH.

River Fly Monitoring: - SC reported the course was helpful and highlighted strong organism presence in properly collected samples. - EA contractors are sampling sections of the river; report awaited.

Future Chemical Sampling Dates: - 23 February or 1 March 2026
- 25 June 2026

10. Walks and Events

- Seasonal walk scheduled for 6 January was cancelled due to ice and poor weather.
- An informal walk took place with seven participants; results to be submitted to the EA.

- Annual River Walk scheduled for **Sunday 10 May 2026**, using the Fulbourn Forum route with tea at The Manor.

11. Insurance and Safeguarding

- Awaiting advice on Zurich quote from CT insurance advisor; The Zurich quote is for small charitable organizations but may not be suitable for the full cover we require. It is cheaper but needs to include member to member insurance should we choose it for next year. We now have all the committee members verbal or written assurances for procedure with our original option.Tect risk services through Ansvar insurance.
- Review Zurich next year.
- Review of child protection requirements and minimum age for committee members (RL, DL).

12. Website

- Agreed to set up donations capability via the website on a one year trial basis. Either activating the donations site or by direct link to the bank.
- Consideration given to publishing WRPS bank account details on the website (DL).

13. External Networks and Partnerships

- Committee did not have ideas for the Cambridge Nature Network.
- Committee agreed to register interest with *From the Ground Up (FTGU)* (RL).
- Consider involvement with the Cambridge Nature Festival (23 May – 30 June 2026) to raise the WRPS profile.

14. Notice Boards

- Agreed that notice boards require ongoing updates.

15. Water Resources East (WRE)

- Planned Zoom call with WRE regarding formal membership recognition.
- WRE workshop scheduled for **23 January 2026**; RT and DL to attend.
- DL has requested information from the EA regarding evaluation of the augmentation schemes.

16. Dates of 2026 Meetings

April 9th. July 9th. October 8th.

Actions Summary

- Add AGM draft minutes to website (DL).
- Compile monitoring equipment requirements (SC, DJL).
- Explore funding options (SC, RL, RT).
- Proceed with insurance and safeguarding review (RL, DL)

-Register Interest from the Ground Up (RL)

-Contact Clarence to confirm date of water testing (RL)

WRPS Committee Meeting Minutes

Date: 9 April 2026
Location: The Windmill. CB215LG

1. Apologies. Richard Townley. Brian Jackson. David White

2. Attendance David Lomas (Acting chair) Stephen Corey. Sharon Mulley. Richard Lane. Rebecca Lomas**.**

3. Minutes of Previous Meeting (January 2026)

Noted that absent from the minutes was SC to prepare a plan for monitoring at the Fulbourn Nature Reserve for submission to the clock fund. Minutes to be amended RLo. Completed

4. Matters Arising / Actions Update

- AGM draft minutes uploaded to website (DL) Done
- Monitoring equipment requirements list (SC, DJL)List given to WRPS treasurer for payment
- Funding opportunities progress (SC, RLo, RT) see further minutes
- Insurance and safeguarding review progress (RL, DL) Insurance purchased from Zurich. RLo is safe guarding lead for the society.
- FTGU registration status (RLo) WRPS attending FTGU functions and application for free access to Parish online through FTGU has been made.
- Water testing date confirmation (RLo) Testing done on March 1st by committee volunteers results available.

5. Treasurer's Report

- Current balance update £ 1031.46. This reflects a large donation of £391 from the Wilbraham Common Rights Holders for the purchase of chemical monitoring equipment.
- Bank charges Current charges £10/m but should be £5. SM will contact bank.
- Website fees DL managed to find a way to accept donations from users of the website directly to square without increasing the subscription to WIK.
- Insurance costs. Zurich PLI purchased cost £100 Repaid to RLo

6. Secretary's Report.

- Membership update 2 new members and one deleted as moved away.

- Communications and engagement. Correspondance from CVF,Cameo. Cam catchment. Local to be sent to committee. Details of interest eg petitions to be made available on the website in News sector.

7. State of the River Update

- EA reporting updates. Dl and David Cottee of Fulbourn Forum continue to report back to the EA on the flow in the river as they do not appear to have correct information particularly on the split of the augmentation between Fulbourn and Wilbraham .
- CrowdWater. RLo to enter data collected on the seasonal walks. Details of the app on the WRPS web site.
- Rainfall and flow conditions. Rainfall 126 mms since Jan 1st 2026. This is low. Flow has recovered along the whole river since mid-February, the water levels are low.
- An algae bloom has appeared on the river at the junction of the New Cut with the LW River this continues downstream for about 250m potential causes Low flow due to low ground water levels and agricultural run-off. The algae disappears after about 150 meters.
- Augmentation update. Augmentation of the springs continues to run at both Fulbourn and The Temple. The split between the sites appears to be roughly equal to the eye but The EA maintain 99% of flow is to The Temple at present. This calls into question the efficiency of their monitoring data. They will review this.
- River status observations

8. DFASS Update

- Updates received. No further DFASS meetings . DJL meeting with Tony Goryn to update on 11.04
- WFD classification information. Flow recording was stopped in 2015. Five other heavily modified rivers recording was also stopped by the EA as the modifications made assessment too technical to be collected.

9. River Quality Monitoring

- Reinstallation of equipment. Equipment systems now upgraded and reinstalled by SC. The EA monitoring board whichfell over several months ago disappeared on April 9th. RLo to contact EA to inform them.
- Equipment upgrades
- Chemical sampling results. Second sampling session completed on March 1st.
- Workshop feedback. Minutes of LoCal group circulated to attendees.
- Riverfly monitoring update. AEComs are doing Riverfly monitoring for the EA three times a year. The report is due . DL liaising with EA. Next training date April 14th.

10. Funding Opportunities It was agreed that we need to develop some more ideas for projects that will benefit the river , its environment and community involvement. It was suggested that each member of the committee tried to find one suggestion.

- FTGU / WRE Fund LoCaL 4 members of the committee regularly attend these meetings. A bid has been submitted for Simon Griggs Trust for equiptment for chemical monitoring and community involvement. SM will chasePeter Bates for links to a specific fund he suggested.
- Wadlow Wind Farm ? prefer to sponsor items.
- Fulbourn Clock Fund. SC is writing a proposal for monitoring in Fulbourn for a bid to the Clock Fund
- New opportunities. DL will circulate details on Zero Carbon Communities(SCDC)fund applications

11. Walks and Events

- Annual River Walk (10 May 2026)RT will confirm with David Cottee the route of the walk. Sharon Mulley has offered to walk, measure and time the walk. Tea will be at Fulbourn Manor. JG and RT will liaise on timings. Need to circulate the details ASAP.
- Spring seasonal Walk (9th April) Walk completed with 12 walkers. Warm dry weather. 25 bird species recorded. Thanks to the clearing of the foot path it was possible to walk two abreast. The boardwalk needs some safety repairs RLo to contact Cambridge Rural Farms.
- Future events. Seasonal Walk 9th July

12. Insurance and Safeguarding

- Zurich review outcome. RLo Safeguarding lead.

13. Website. It was agreed that all members of the committee would visit the website and propose a suggestion for its improvement at the next meeting.

- Donations page update. The Entry page to the website has a donations button clearly positioned. It was decided to leave this as the main means of donating and to try to increase the number of visitors to the website
- Bank details publication. Committee not in favour.
- General updates. Discussed raising the profile and inclusivity of the society.
- Make social media accounts for Facebook etc SC will look into this . Possibly Clarence Van Marle would be happy to involved with this. RS to investigate.
- Increase news and topical information in the news section. EG details of “Dirty Water” and the petition it has spawned to hold a referendum on bringing the Water industry into public ownership. Dlo to add to website
- SC will review and try to update the data display.

14. External Networks and Partnerships

LoCaL 4 members of the committee regularly attend these meetings

CAMEO. DL attended in person meeting at Thetford.

15. Notice Boards

- Updates and maintenance to continue.

16. Any Other Business (AOB) **17. Date of Next Meeting** 9 July 2026

WRPS Committee Meeting Minutes

Date: 9 July 2026 at 7.30 pm
Venue: The Windmill. Little Wilbraham. CB21 5LG

1. Welcome and Apologies

- Attendance. Stephen Cory. Richard Lane. David Lomas. Richard Townley (chair) Sharon Mulley (Treas).Rebecca Lomas (Sec)Jane Gaskell. John Terode. Invited.
- Apologies David White

2. Approval of Previous Minutes

- Minutes of 9 April 2026 Approved
- Matters arising. John Torode elected to the committee. Proposed by Richard Lane and seconded by Richard Townley.

3. Action Log Review. Covered in items for discussion

4. Treasurer's Report

Current account balance. Current balance £ 935.

- Previous balance April 26 1037.
-
- Income since April. Fulbourn Forum 100.
- Profit from Summer walk 3.67
-
- Expenses Reimbursement to SC for monitoring equipment.£184.53 Bank charges. £4.99
-
- Donations received. Nil
- Bank charge update. Confirmed as total £4.99 monthly.

5. Secretary's Report

- Membership update. 158 Members currently.
- Communications and correspondence. Request from John Shepherd, Wilbraham's and Fulbourn over 60s for a speaker next year. RLo to request more information on what sort of topic appropriate. Dl offered to talk on abstraction. JT offered talk more generally on the river. RL

6. State of the River Update

- Environment Agency liaison and reporting.
  DL updated on WFD River Basin Management Plans (RBMPs) and their importance to the WRPS. The 2027 plans have to have specific Programmes of Measures (PoMs) for each waterbody's RNAGs – these are legally binding on the EA Currently the RNAG status (Reasons for not achieving good status) for the LWR is based on two chemical findings. The EA stopped recording Flow/Hydrological regime in 2015 (our main problem) meaning this cannot be an RNAG or have a "measure" to resolve it such as improving augmentation or reducing local aquifer abstraction. This year we may be able to correct this.
  We need to prove poor flow and seasonal drying in the river by collecting evidence from monitoring, water flow recordings etc. Also suggest interventions/measures such as reviewing/improving augmentation or reducing abstraction.. DJL has suggested to the Cam Catchment Partnership that they produce a simple questionnaire and circulate to each river group to complete for individual rivers that can be feedback to the EA.

- Flow and rainfall conditions. None of the river springs have “sprung” this year due to poor groundwater levels. There has been low rainfall and very high seasonal temperatures. River currently dry between Hawk Mill and Quy Mill Hotel as well as the Fulbourn new Cut. Water is in the river bed from the Temple to hawk Mill as a result of the augmentation
- Algae bloom observations and any developments. River now dry. No quality monitoring was done whilst the algal blooms present but likely due to poor flow and agricultural run off.

7. DFASS and External Agency Updates

- Update from discussions with DFASS representatives. Due to dry conditions the river augmentation has been running for at least 1 year. Only 69% of the total augmentation water allowance has been pumped. This suggests the pump lacks the capacity to reach the limit.
  TG has suggested the EA allow us to utilise the unused licence volumes from the other sites on the Lodes-Granta Groundwater scheme EA to reply

8. River Quality and Flow Monitoring

- Monitoring equipment performance and maintenance. SC Installed flow camera monitoring which is live on the website at both The Lanes and Fulbourn gauging station. One problem is reed overgrowth on any measuring board especially at the lanes Gauging Weir.
  Chemical sampling results and trends. Nil since March.
  Some LoCaL groups have been funded by Parish Councils to monitor weekly. These groups have beein issued with testing kit which was provided on their LoCal training days Riverfly monitoring update. SC has observed invertebrates in the river. The 2025 EA report on Riverfly monitoring, outsourced to AECOM is due in July.
- Training and volunteer participation. Possibly to clear weed at monitoring sites but need help for SC as should be two people present for safety reasons .
- Future monitoring requirements. We need an Ammonia monitoring facility and the multiparamater meter. To apply for a grant for these.

9. Funding Opportunities and Project Development

- Progress on existing funding bids. RT SM and Rlo attended webinar exploring funding for water conservation measures and quality improvements for farmers. Recent changes to ELMS have produced some new rules. To look further at Cambridge Water SPRINGS project on line RLo
- Simon Gibson Trust application update. Application(with LoCAL) for funding for reagents for chemical analysis failed.
- Clock Fund proposal update. SC will produce brief outline in the next few weeks.
- New project and funding ideas from committee members. It was suggested we apply to Parish councils x 3 Local and Teversham. for funding for support of chemical testing.
- Waddelow WF apply for funding for Hanna Multiparameter Meter and an Ammonia Checker Meter and possibly two upgraded camera systems .Need more info on how to make the application. To discuss with Alan Cody . SM. DL. RL
- Community engagement initiatives. 2 projects considered1) Out reach to schools GW primary, Steiner 2) EDNA test and improvement of biodiversity of river. RLo to request advice from members.

10. Walks and Events

- Review of Annual River Walk (10 May)A great success.
- Boardwalk safety repair update. Nil happening RLo to check progress.
- Seasonal Walk – 9 July Cancelled officially due to heat but walked by 10 people including Toby Carter, Alvin Helden and Emma Dominic from the Greater Chalk Streams Project. They support 6 local rivers ,not ours or any others east of Cambridge and are looking for a 500 meter monitoring site. They were interested to see our river.

- Annual walk. May 2027. From Quy to Anglesea Abbey. Bus returns to LW from AA entrance. To DW if feasible to walk Quy Mill (Check parking) to Quy Hall., or Quy Hall to AA and have tea there.

11. AGM

Speaker. suggestions Ruth Hawksley WT or a Representative from Wicken 100 project. DJL to contact
Date and Venue. November Memorial hall. RLo check availability. Monday nights only

12. Website and Communications

- Website improvement suggestions from committee members. Add Poor Wells Spring to map. DL
- Donations page performance. No donations.
- News and topical content updates. Satisfactory
- Social media presence and recommendations .RLo to contact Clarence for suggestions,
- Data display improvements no suggestions

13. External Networks and Partnerships

- LoCaL update ongoing
- FTGU update RLo
- CAMEO update DL
- Cam Catchment Partnership DL
- Other partnership opportunities

14. Notice Boards

- Update and laminate maps. DL

15. Any Other Business (AOB)

16. Date of Next Meeting OCT 8th at 7.30 pm at The Windmill

ARCHIVE

Minutes of the Wilbraham River Protection Society committee meeting.

Thursday, 1 October 2026 7.30pm
The Windmill, Little Wilbraham

1. Present. Richard Townley (Chair) Sharon Mulley (Treas) Rebecca Lomas (Sec) David White, Richard Lane, David Lomas.
Apologies. Jane Gaskell, Steven Cory**.**

2. Approval of Previous Minutes
Minutes from the meeting held on 9 July 2026 approved.

3. Treasurer's Report.
Accounts to the end of Sept 26 (11 months)
Current account balance £954
Income and expenditure. Income £710 Expenses £557 Surplus £152.95

4. Secretary's Report
Membership update 163 members
Communications and correspondence to membership. Newsletter sent on 2-8-26 re the cam valley forum manifesto and the dates of the walk and the AGM dates.
News letter sent with warbler article and the details of TV broadcast with Pippa Heylings, plus request for volunteers and advice. Replies from Bob Windsor who cannot manage the walk DW happy to take him along the route in his buggy. Bruce Huett, helpful information of his interesting work internationally on how to educate about the environment and conservation. He also suggested the Fenland museum.

DL and JT have arranged to talk to Fulbourn Over Sixties next year. Bob Shepherd informed.Date arranged.

Review of constitution.
Please see attached current constitution with proposed changes, to be circulated 21 days in advance of the AGM to members.
The funding application to the Wadlow Wind Farm requires certain amendments to the 2010 constitution.

A dissolution clause to be added.

In the event of the society ceasing to operate the committee will distribute the assets of the society, after the satisfaction of any debts and liabilities, to charitable organisations with similar aims and objectives to those of the Wilbraham River Protection Society.

And addition related to funding of the society

The society will rely for funds on voluntary contributions and grants and will operate as a not-for-profit organisation.

Both clauses were accepted by the committee and will be submitted to the members for approval at the AGM**.**

RT suggested at a later date the committee discuss the need for both a president and a vice president.

5. State of the River Update

River Basin Management Plans.
DL has submitted a Programme of Measures to the EA for the Wilbraham River requesting:
-Reinstatement flow/hydrological assessment. This was discontinued in 2015 with no explanation
(The absence of hydrological assessment means the impact of aquifer abstraction is ignored)
-Mitigation Measure Assessment (ie augmentation) is not "good "and needs to be altered.
Note also the committees monitoring of the ammonia levels are different to those recorded by the EA.

This has been sent to Sam Phillips and others at the EA. Pippa Heylings Lib Dem MP for South Cambs,The River Cam Partnership and Cameo. So Far there has been no response from the EA.
The Committee suggested the plan should be sent more formally possibly by recorded delivery and to more senior members of the EA. DL will pursue a more formal response.

Dry River Map.
DJL has updated the map on the Cam Catchment Partnership web Site regarding the LW river. DW suggested informing local farmers about the map as they may contribute further information. DL DW to do.

Flow and Rainfall conditions.
Groundwater levels 10.55 m AOD at Cherry Tree Stud. This is the lowest September level in the last 5 years. (River flow returns when the GWL are around 14+)
Flow distribution between Fulbourn and Temple springs was varied by the EA at the end of August to prioritise the nature reserve. Currently there is good flow in the Fulbourn New Cut and flow in the WR to Laceys pond and retrograde flow toward Hawk Mill Farm. The section from the Temple to Hawk Mill Farm remains dry.
The mechanism for switching flow between the two augmentation sources is managed by the EA but performed by Dave from Bury Pumps. He has control of some 60 local pumps. The flow control is inaccurate and based on his experience. The flow meters are broken and cannot be repaired for health and safety reasons.

6. DFASS and External Agency Updates
Trading of unused LGGS licence volumes was proposed to the Environment Agency. Tony Goryn received a dismissive reply to this proposal and he has challenged this in a letter to EA Customer Engagement & Sam Phillips (EA). Reply awaited.

7. River Quality and Flow Monitoring
Monitoring equipment performance and maintenance
A new camera and post has been installed at the Fulbourn Gauging Weir by SC, DW, DL and funded by the Wilbraham Common Rights Holders. A basic camera continues on the Lanes Gauging weir. Both now live on the web site.
Reed and weed clearance at monitoring sites.
In the last week there has been weed clearance by South Cambs at The Lanes.

Chemical sampling results.
Recently DL sampled with Peter Bates from Local at Stonebridge duck pond. High Phosphate 3.9 and Nitrate levels recorded. Possibly due to a large waterbird population. Will be discussed at Local meeting Oct 5th.

Riverfly monitoring update and EA report still awaited.
Volunteer participation and safety N/D
Future monitoring requirements See Wadlow grant funding.

8. Funding Opportunities and Project Development
Existing funding opportunities and bids
Cambridge Water SPRINGS project No further information.
Clock Fund proposal SC will submit.
Parish Council funding for chemical testing. Not available at present but may approach in the future.

Wadelow WF funding application. Grant application to be submitted by Nov 1st. DL is putting together a proposal for equipment up to value of £10000 including Multi-parameter meter, ammonia checker and camera systems and possibly eDNA testing.

Requirements to be met

- Alteration of constitution
- Bank paying in slips
- Organisations accounts for the last 1year. 3 different quotes for expensive equipment (this may not be possible)
- Evidence of engagement with the community eg quarterly and seasonal walks ,lectures given and scheduled, AGM, Films made and TV appearances farmers market. Social media, safeguarding policies. Representation on committees eg Local. Cameo. FTGU.Eastern Farmers. Planning and development.Nature network.Cambs Natural History and Cambridge Bird societies.

9. Walks and Events
Boardwalk safety repair update. Reply from Polly Stokes (rural surveyor at Cambs CC) Funding is no longer available for the upgrade of the boardwalk. They will try to find other funding. Further communication to PS re who is responsible for the public safety. RL

Annual Walk, May 2027. Three dates proposed May 9th 16th 23rd DW to investigate options and feasibility for the May 2027 Annual Walk, including route and parking arrangements

Seasonal walk Oct 1st. 13 attendees Council had cut footpath vegetation prior to walk. No flow in the LW River from next to Laceys Pond downstream to A1303 bridge.

10. AGM
Speaker arrangements. Matt Day of Cam Catchment Partnership will speak on the partnership and its role. Details to be confirmed Oct 26th.
Date and venue arrangements. Gt Wilbraham Memorial Hall Monday November 9th at 7.00 PM.
Agenda
7.00 pm AGM of society chair RT will give the report.
Proposal of committee membership RT will propose DL for chair. Committee in agreement.
Membership vote for constitution amendments.
7.45 pm Break for drinks. JG RS SM
8.00 pm Speaker and questions.
9.00 pm Finish

11. Website and Communications
Donations page 1 x donation £20
News and topical content will now post Details of seasonal walks ,Details of AGM and the Wilbraham warbler articles.Annual Update of the previous years minutes before the AGM
Social media recommendations. Clarence Van Marle contacted, expressed interest in helping and will come back to us .RL to fu.
DL added Poor Wells Spring to the website map.

12. External Networks and Partnerships
LoCaL update Oct 5th
CAMEO update. Ongoing DL member of steering group
Cam Catchment Partnership. Next conference Nov 4th 26 at Stapleford Granary. RT, DL will attend.
Other partnership opportunities. CVF newsletters circulated.

13. Notice Boards
Update and laminate maps.
RT JG to review Fulbourn board and liaise with DL re lamination.

14. Any Other Business.
Homes England & Hill developments following sale of Marshalls airport Teversham Parish Council has noted the land that had been owned by Marshalls, to the east of Airport Way and north of Teversham, and previously proposed as the site of a Country Park was not included as such in the draft Local Plan. Initially the WRPS committee was concerned about the impact this community park would have on the SSSIs due to its proximity and increased exposure of both Teversham and Wilbraham Fen.
However TPC have raised concerns about the ownership of land to the east including Teversham Fen and its potential for housing development rather than a park. More information is required.
DL to continue to liaise with TPC who have submitted a response challenging the changes to the Greater Cambridge Planning Local Plan Consultation

15. Date of Meetings for 2027 all on a Thursday and at 7.30
Jan 7th 2027
April 8th
July 8th
October 7th
